Course Value: -

Assessment/Student evaluation: -

Course Language: English.

Software: N/A

Agenda

09:00-09:30

Welcome

Introduction to the Library System at UHH

Introduction to the services of the Library WISO/BWL and the Medical Library/ÄZB

Information and workflow for getting the fulltext of books and articles

Learning objective: The PhD students know where and whom to ask and they include services of the library system UHH in their getting-the-fulltext workflow.

09:45-10:45

Literature searching I: Business studies

11:00-12:00

Literature searching II: Health sciences

Learning objective: The PhD students know which databases are available, how to approach finding good search terms and how to adapt the searches for their topic in these databases. The PhD students will also get an overview of how to approach a literature search for a systematic literature review.
